

## EXCLUSION OF THE CHINESE.

Weighty Changes Suggested by House Committee.

Inspection at Point of Embarkation Desired.

Lieutenant-Generalship Is to Cease to Exist.

(BY DIRECT WIRE TO THE TIMES.)  
WASHINGTON, Jan. 1.—[Exclusive Dispatch.] Important modifications of the Chinese Exclusion Law are provided in a bill reported today by a subcommittee of the House Committee on Foreign Relations.

The bill provides that inspectors shall be placed at Canton and other centers in China, in order that Chinese who intend coming to this country may be examined there.

Chinese or persons of Chinese descent, irrespective of occupation, holding a certificate of residence in this country, shall be entitled, after having departed, to return at any time.

All Chinese other than those engaged as teachers, students, merchants and persons traveling for curiosity or pleasure in the United States will be compelled to apply within a year to the officers of the Department of Commerce and Labor for a certificate of residence.

Failing to do so after that time they will be deemed to be unlawfully within the country, and will be deported.

It will be unlawful for any Chinese person who is a teacher, student, merchant, banker, accountant, book-keeper, member of a learned profession, editor or traveler to work for gain as a laborer after entering the United States.

**NEW NOMINATIONS.**  
**ARMY AND POSTOFFICE.**  
(BY THE ASSOCIATED PRESS—A.M.)  
WASHINGTON, Jan. 1.—The President today sent to the Senate the following nominations:

Colonel to be brigadier-general—Edward S. Godfrey, Ninth Cavalry.

To be assistant surgeon—Frank H. Stephens, California.

Postmaster—Arizona, M. P. H. N. Gales.

California, C. E. Fuller, Anderson, M. E. Simmons, China, J. J. Furell, Morgan Hill.

Fred E. Cornell, Sunnyvale, J. L. Brown, Turlock, J. M. Gohmann, Wheatland.

**CATHOLICS IN PHILIPPINES.**  
**TAFT TALKS TO COMMITTEE.**  
(BY THE ASSOCIATED PRESS—A.M.)  
WASHINGTON, Jan. 1.—Secretary Taft appeared before the House Committee on Insular Affairs today to discuss the claims of the Catholic church in the Philippines for the occupancy and destruction of church property by the American troops during the Spanish War.

He reviewed the work of the military, \$45,000, the amount which the board decided should be paid by the United States. It was urged by Mr. Taft that the church exercise a pacifying influence, and that the claims should be paid without delay.

When asked if the Philippines church had not been charged with disloyalty to the United States, Secretary Taft said the disloyalty had been charged to native priests, and not to the church authorities.

**MILITARY APPROPRIATIONS.**  
**BILL ABOLISHES ONE RANK.**  
(BY THE ASSOCIATED PRESS—A.M.)  
WASHINGTON, Jan. 1.—Chairman Hull of the House Committee on Military Affairs today reported the Military Appropriation Bill. In round figures the bill carries \$73,600,000, which is a reduction of about \$6,000,000 from the estimated amount for the year.

The bill carries about \$2,000,000 more than the appropriation made at the last session of Congress. Mr. Hull gave notice that he would call the bill up tomorrow.

The bill provides that the office of Lieutenant-General of the army shall be abolished as soon as it becomes vacant. Lieut.-Gen. Arthur MacArthur, who now holds that rank, will retire for age in 1909.

It is also provided by the bill that hereafter no grade shall be established without approval of the Congress, and no appropriation in the bill is to be expended on a post which is to be abandoned. This legislation comes in the wake of the bill which authorized Secretary Taft's avowed plan to concentrate the army in large posts.

**FIFTY-NINTH CONGRESS.**  
**CLOSING SESSION.**  
(BY THE ASSOCIATED PRESS—A.M.)  
WASHINGTON, Jan. 1.—SENATE.—The Republican leaders of the Senate were in conference at various times today on the terms of a resolution relating to the President's discharge of the negro troops that will harmonize the differences between Senators Lodge and Foraker.

The indications are that a provision will be determined after a report on an inquiry by the Committee on Military Affairs into the occurrence at Brownsville, without specifying whether it shall deal only with the facts, or shall include the legal problems as well.

In view of this prospect, Senator Foraker today further postponed the presentation in the Senate of his views on the subject. It was announced that Senators Tillman and Daniels and other Senators decided to not proceed today on account of illness.

Discussion in the Senate of the President's course in discharging the negro troops was resumed. Senator Daniels was the first speaker. In the main he supported the President.

**HOUSE.** The House today took up the Army Appropriation Bill, an agreement having been made that six hours should be allowed for general debate.

Mr. Sladen of Texas spoke at length on the Brownsville affair. He said there was no doubt that negro troops had been responsible for that disturbance, and contended that if they had been white, their discharge would have been generally endorsed. He charged that the discharge of the negroes was due to political reasons.

The bill limiting the hours of railroad employees was taken up. The unfinished business before the Senate, and was discussed for an hour and many amendments suggested.

Other speeches were made by Mr. Zenor of Indiana against the Ship Subsidy Bill, and by Mr. Gaines of Tennessee, who spoke in commendation of the ninety-second anniversary of the battle of New Orleans. Without interrupting general debate, the House at 5:50 adjourned.

## MANY JAPS MAY COME.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Jan. 1.—Reliable information has been received here of a prospective influx of over 2000 Japanese into the United States from Mexico. Some of these have arrived, and others are expected to arrive at Mazatlan, Mex.

The Japanese were given free transportation, and were to be employed in the development of important interests in Mexico. Those who have arrived have become dissatisfied with their conditions and wages, and already some have started for the Mexican border. If they are found mentally and physically sound, and the other requirements of the immigration law are met, there is nothing to prevent them from entering the United States.

6 The Japanese immigration to the Hawaiian Islands during the past eighteen months aggregated 15,749, a large portion of whom subsequently came to the United States.

## WASHINGTON BRIEFS.

San Francisco Bank's Agent.

WASHINGTON, Jan. 1.—[Exclusive Dispatch.] The National Bank of Commerce of St. Louis is approved as reserve agent for the American National Bank of San Francisco.

**Panama Canal Contract.**  
WASHINGTON, Jan. 1.—The terms of the proposed Panama Canal contract will be considered today by the Senate Committee on Inter-oceanic Canals.

**Advice to Manufacturers.**  
WASHINGTON, Jan. 1.—Secretary Wilson today issued a statement advising all food manufacturers and dealers to study carefully all provisions of the pure food law, and then to place their business as nearly as possible in harmony therewith.

**Heard About 2-Cent Rate.**  
WASHINGTON, Jan. 1.—The Sherman bill for universal interchangeable railway mileage books at the rate of 2 cents a mile, was the subject of a hearing today before the House Committee on Interstate and Foreign Commerce.

**Increase Army Nurses' Pensions.**  
WASHINGTON, Jan. 1.—The Senate Committee on Pensions today agreed to report favorably a bill increasing the pensions of army nurses. The measure will necessitate appropriations aggregating about \$60,000 a year.

**Subtreasury for Birmingham.**  
WASHINGTON, Jan. 1.—Birmingham, Ala., was selected as the location for a new sub-treasury by a caucus of the Southern Senators and representatives at the Capitol today. Columbia, S. C., and Birmingham were the only cities mentioned.

**Claim in Bankruptcy.**  
WASHINGTON, Jan. 1.—A claim in bankruptcy can be filed after the discharge of a debtor has been granted for a year, according to a decision made by the United States Supreme Court today.

**That Isle of Pines Case.**  
WASHINGTON, Jan. 1.—The Supreme Court of the United States today set the hearing in the case of Peary vs. Stranahan, involving the question as to whether the Isle of Pines is American or Cuban territory, for March 4, next.

**German Complaints About Due.**  
WASHINGTON, Jan. 1.—The State Department has been informed that the German government is complaining about the delay in the payment of the reparations for the destruction of property in Germany during the war.

**Death in "Poison Squad."**  
WASHINGTON, Jan. 1.—Representative Hay of Virginia introduced a resolution in the House today for the investigation of the death of Robert Vance Freeman, a former member of the "Poison Squad," who died while in the service of the government.

**Cortelyou's Confirmation Drags.**  
WASHINGTON, Jan. 1.—At the request of Senator Teller, the Senate Committee on Finance today postponed for one week action on the nomination of Postmaster-General Cortelyou to be Secretary of the Treasury.

**Panama Railroad Report.**  
WASHINGTON, Jan. 1.—The fifty-ninth annual report of the board of directors of the Panama Railroad Company by Theodore P. Shonts, president, for the last fiscal year, was today transmitted to Congress by Secretary Taft.

**Anti-Wreck Committee.**  
WASHINGTON, Jan. 1.—Senator Cortelyou today introduced a joint resolution providing for a joint committee of four Senators and five members of the House to investigate the causes of wrecks on the Panama Railroad.

**STEAMSHIP IS SEIZED.**  
German Vessel Held to Satisfy Claim of \$25,000 for Pulling it Off the Reef.

(BY DIRECT WIRE TO THE TIMES.)  
PORT ANTONIO, Jan. 1.—[Exclusive Dispatch.] The German steamship "Bruders" has been seized by order of the Admiralty Court to satisfy a claim for \$25,000 against her by the Elder Dempster steamship line.

The "Bruders" was seized by a reef here. The claim is contested as the vessel was damaged by the reef.

Efforts have been made by the officers of the post to keep this alleged conspiracy a secret, but it is learned that an investigation is now being conducted at Fort Reno by the military police.

Information was received here tonight that the arrest of a negro soldier had been made at La Junta, Colo., today.

Suspicion rests upon a member of the troop at Fort Sniburn, Neb., and at three other points. The arrest of these men has been postponed until the hearing in the case of Corp. Knowles was concluded today at Fort Reno, when it was hoped that some further information would be received regarding the alleged conspiracy.

**ORDERED TO LET GO.**  
(BY DIRECT WIRE TO THE TIMES.)  
AUSTIN (Tex.) Jan. 1.—[Exclusive Dispatch.] Capt. MacDonald says he has arrested thirteen negro soldiers at the night of the Brownsville riot, but was ordered to let them go.

## PERSIAN SHAH DEAD, BUT FACT WITHHELD.

Telegram to London Announces the Ruler's Ending—Closing of Harem Doors Discloses the Truth—Public Not Yet Informed.

(BY THE ASSOCIATED PRESS—P.M.)

MUZAFFER-EDDIN, Shah of Persia, whose long illness has ended in his death.

LONDON, Jan. 1.—The Daily Mail's correspondent at Tehran, in a telegram sent last night at 11:20 o'clock, says:

"The Shah of Persia died this evening, though no public announcement of the fact will be made until tomorrow (Wednesday)."

"It was evident yesterday (Monday) that the end was rapidly approaching, and the women of the palace also began preparations for mourning."

Soon after sunset the doors of the harem were closed. This was the sign that all was over.

"The news of the Shah's death reached the Foreign Minister late this evening, but the public is still unaware of His Majesty's end."

**FLINT AND PARTY BACK FROM CANAL.**  
Work on Isthmus Was Found to Be Progressing Very Favorably on Economical Lines—Chinese Labor Not Needed.

(BY DIRECT WIRE TO THE TIMES.)  
NEW YORK, Jan. 1.—[Exclusive Dispatch.] The party made up of ten representatives and one Senator, who left here December 21, last, to pay a visit of inspection of the work done on the Panama Canal, and to study the prevailing conditions there, returned today on the steamer Advance.

The men have made up their minds that the work is progressing satisfactorily, that the conditions are roseate, and that Chinese labor is wholly unnecessary to the completion of the work.

The party consisted of Senator Frank P. Flint and Representatives W. R. Knowland and Duncan E. McKinley, of California; F. B. Fuller, of Missouri; James McKinley, of Illinois; William James Howell, of Utah; M. P. Kinkaid, of Nebraska, and H. E. Steiensen, of Minnesota.

**SENATOR FLINT'S VIEWS.**  
Senator Flint, speaking of the result of the visit said:

"I found everything in excellent shape, and work progressing very favorably on the most economical lines. The men are well housed and well fed, but the chief difficulty of the future, to my mind, is the building of new houses. You may say that I am emphatically of the opinion that there is absolutely no necessity for the employment of Chinese labor in completing the canal."

**MCKINLEY'S IMPRESSIONS.**  
Congressman McKinley, telling of his impressions of the visit, said:

"We investigated thoroughly the work done and the conditions prevailing there. There is not the slightest necessity for the employment of Chinese labor in completing the canal. The work is progressing satisfactorily, and I feel assured that the canal will be completed within a reasonable length of time."

Congressman F. S. Dickerson of Illinois said he was opposed to the employment of Chinese labor on the canal. He said the men now there were doing good work; were contented, and the conditions were excellent regarding conditions in the canal zone.

**CONSPIRACY TO KILL ALL WHITE OFFICERS.**  
Negro Soldiers at Fort Reno Suspected of Diabolical Hatred Against Capt. Macklin—Corporal Knockers Convicted.

(BY THE ASSOCIATED PRESS—P.M.)

F. L. RENO (Okla.) Jan. 1.—Belief of the army officers at Fort Reno that a conspiracy to murder every white officer at Fort Reno, beginning with Capt. Edgar Macklin, against whom nearly every negro soldier at the post entertains a personal grudge, as a result of the affair at Brownsville, Tex., and the discharge of the negro soldiers that followed, and the proceeding down the list of officers, became known today as a result of the preliminary hearing in the case of Edwin L. Knowles, corporal of Co. A, Twenty-fifth Infantry, who was found guilty of assault with intent to kill Capt. Macklin of Co. C, Twenty-fifth Infantry, the night of December 21.

Knowles was bound over to await the action of the Canadian county grand jury at the spring term of court.

All the officers now go heavily armed and protected throughout the night.

Efforts have been made by the officers of the post to keep this alleged conspiracy a secret, but it is learned that an investigation is now being conducted at Fort Reno by the military police.

Information was received here tonight that the arrest of a negro soldier had been made at La Junta, Colo., today.

Suspicion rests upon a member of the troop at Fort Sniburn, Neb., and at three other points. The arrest of these men has been postponed until the hearing in the case of Corp. Knowles was concluded today at Fort Reno, when it was hoped that some further information would be received regarding the alleged conspiracy.

JUDGE IS IN NEW YORK, LAWYERS IN BALTIMORE.  
Yet All Legal Formality Is Observed to Make and Argue Pleas Necessary to Preserve Statutory Rights of City in Public Park Claimed by Private Corporation.

(BY THE ASSOCIATED PRESS—A.M.)  
NEW YORK, Jan. 1.—Judge Sharp of the Maryland Court of Appeals, who is in this city on a visit and is at the Waldorf Astoria, held a hearing yesterday over the long-distance telephone between here and Baltimore. The case was that of Baltimore's Mayor and City Solicitor against a corporation known as the Canton Company, which claims a park in Baltimore called the Canton Park. Baltimore contends that the title belongs to it. City Solicitor Spruce of Baltimore decided yesterday that to preserve the city's rights he would have to appeal to the Supreme Court of the United States. He has tried to appeal previously, but Judge Sharp has objected to the admission of certain testimony.

To have this testimony admitted required argument, but when Spruce sought the judge he found he was in New York. He called him up by telephone, and on learning that the judge would listen to argument, he and Assistant City Solicitors Ritchie and Goldsmith argued for about a quarter of an hour. To insure the legality of the novel proceedings, the argument was made in the presence of two officers of the Superior Court of Maryland. Judge Sharp reserved decision until Saturday.

FLOOD HINDERS  
WORK AT DAM.CONTRACTOR AT ROOSEVELT  
LOSES BY DAMAGE.Coffer Dams Are Torn Out and  
Excavation Is Filled Up, Spoiling  
Things Generally — Reclamation  
Service Installing Triple Set of  
Steel Gates at Mouth of Tunnel.

SPECIAL CORRESPONDENCE OF THE TIMES

PHOENIX (Ariz.) Jan. 1.—According to the Weather Bureau, the precipitation at Phoenix for the month of December was 2.59 inches, very much in excess of the average. This rainfall was concentrated into the first and last few days of the month, and in each of these brief periods were heavy floods of considerable magnitude. The later flood did less damage than the former, owing to the fact that the precipitation on the mountains was mainly in the form of snow.

Snow is lower down in the hills than has been known for years. The Superstition Mountains to the east of Phoenix are white and snow has fallen at nearly all points in southeastern Arizona, as well as deeply upon the plateau lands to the north and central Arizona. The clouds again threaten rain. Salt River still is high and the Gila is flowing in large volume under the Southern Pacific bridge, which was repaired for traffic only three days ago. It is believed that the Salt River Gila, together, are contributing about 250,000 miner's inches to the Colorado above Yuma.

Both floods tore out the coffer dams and did much damage to the contractors on the Roosevelt dam. The first flood, however, moved an immense pile of debris, thus to a measure, benefiting the work. The second flood was an unmitigated disaster, filling up the excavation again and spoiling things generally. Just as work was about to recommence in laying stone for the foundation, today work was received, semi-officially, that work on the great dam is likely to be stopped until the time of freshets has gone by; the contractor has grown tired of digging holes in the river bed, and having it filled every two weeks. The time will not entirely be wasted. It will be utilized by the Reclamation Service in the installation of a triple set of steel gates at the mouth of the service tunnel that passes around the dam through the solid rock. This tunnel is essential to the contractors for carrying the flow of the river while work is in progress on the foundation of the dam. Condensed, the weather situation indicates a delay approaching six months in the time heretofore set for the completion of the Roosevelt dam.

On the last night, the San Francisco River again flooded a part of Clifton and again washed out a part of the Colorado railroad, up Chase Creek. Little additional damage was done in the town and railroad communication with the main line was not disturbed. When the Gila bridge was restored to usefulness, the local Electric Light and Gas Company was in its last curfew of oil. It has since managed to keep just ahead of the famine. At no time has the city been without light or fuel, though the margin has been slight for several weeks. At Globe the Gas and Electric Company has been compelled to shut down, the only illumination being from resort to kerosene and candles. The situation is a serious one, owing to the general use of electricity for power.

For a while, during the last flood, Maricopa had a population about ten times the figures given by the census, an especially important part of the transient population consisted of two minstrel companies, which filled the desert air with melody in default of appearance at the opera-house of Prescott and Phoenix.

The temporary heading of the Arizona canal still is a source of constant worry and expense to the farmers supplied by the ditch. The floods have done several thousand dollars' damage and the temporary headworks are apt to be swept away at any time. It is now proposed that the Reclamation Service take charge of the work at the head and put the canal into shape for carrying the entire flow of the Salt River during next summer, draining the river bed above the point where excavation will be in progress for the foundation of the Granite Reef diversion dam.

The belief that all idea of constructing the storage reservoir of the Agua Fria River has been abandoned is strengthened by the fact that the machinery has been lately transferred from the dam site at Frog Tanks to the work at the head of the Arizona Canal.

UNBORN MYSTERY.  
The local police have developed as a fact that C. E. Phillips had been in Phoenix ever since his mysterious disappearance about a month ago, following the escape of Leo Redwine, the notorious criminal, who had been sentenced to imprisonment for extortion, Phillips, a saloon keeper, and Redwine's wife had driven a defuncting constable to Tempe, where he was placed on a south-bound train. It is assumed that he went directly to Los Angeles, and that he is in Los Angeles or vicinity even now. When Phillips and Mrs. Redwine returned to Phoenix, their buggy was overturned at the very stable door, and the former was badly injured, his skull being crushed on stone. Despite this injury, however, he was mysteriously spirited away on the second night after his disappearance, where he was even divided in guessing that he was dead or that he had fled elsewhere. Now it appears that he was nursed back to strength in this city. Incidentally, the mother, Mrs. R. Redwine, has petitioned the Probate Court for the custody of Redwine's child, a girl of four years, alleging that Mrs. Redwine is an immoral and unfit person.

ADMINISTRATOR FOR DE RAYLAN.  
George P. Driscoll, a Phoenix undertaker, has been given letters of administration on the estate of Nicolai de Raylan, the Russian woman who passed as a man. The local estate consists of several hundred hundred dollars and a large number of checks, mainly for small amounts, paid for business done at the Russian-American Bureau in Chicago, of which De Raylan was manager. In the dead woman's effects was found a mysterious box, which, when opened by means of a secret spring, developed little of sensational nature. There were a couple of small Russian Koras and some clip-pings. One of the clippings was especially interesting in view of De Raylan's sex. It told how two foreigners had been arrested by the police in Chicago for insulting women on the street by winning at them. The next morning, one of them, a man connected with the Russian embassy was fined \$5 and costs, while the second, named De Raylan, was discharged.

During the inquest much interesting information came from an individual calling himself Tanner, who said that he lived in Los Angeles and was there connected with the Mablewood Land Company. It is now alleged that the man's name is not Tanner, that he is a Russian and that he did not live in Los Angeles, and that there is no Mablewood Land Company in Los Angeles. The Probate Court has been advised that within a few days will be received De Raylan's will, which has been filed for probate in Chicago.

TERRITORIAL BRIEFS.  
The Pacific Creamery Company has taken over the Tempe creamery and will have the plant in operation on a larger scale than ever within a few days, paying for milk at the rate of 2.50 per 100 pounds in winter and 30 cents in summer. The state of the milk supply of the valley is hardly sufficient at present for the operation of the condensed milk factory, but the factory may be started at some future date.

A unique request lately received by Gov. Kibbey was one from the Apache-Mojave Indians of the upper Verde Valley, asking that a school be established for their benefit near Camp Verde. Three Indians made a special visit to Phoenix to see the Governor and to plead their case. The Governor promised to do all he could toward the end sought. One of the visitors, Chief Novak, exhibited with pride, a commission issued in August, 1874, by Brig.-Gen. George Crook, appointed Capt. Charley as chief of the tribe. Novak is the third head chief since that date.

A Christmas dinner is becoming a regular institution on the Maricopa reservation, the host being Agent George E. Brown. The principal article on the bill of fare is fresh corn furnished by the government and cooked by the Indians themselves. However, bread, potatoes and other even items are contributed to the feast by the generous agent. He is troubled annually in the handling of the religious sects on the reservation. The Catholics refuse to eat with the Protestants and vice versa, while the third division known as the reservation as "pagans" will eat with anybody or anywhere.

A couple of months ago incorporation at Globe was knocked out in the District Court on technical grounds. Another petition for incorporation has been generally signed in the camp, and will go before the Board of Supervisors very soon. The corporation is opposed by the saloon-keepers against whom the City Council of Globe had already passed restrictive measures, when the organization of the city government was declared illegal.

During the past two years, seventy-five new physicians have been granted licenses to practice in Arizona by the Territorial Board of Medical Examiners. Ten licenses were refused after examination. Of the total received, seventy-two are listed as regulars, one is a homeopath, two eclectic and one an osteopath.

Frank Luke has been appointed assessor of the county of Maricopa, being his own successor.

Henry C. Yaeger has been elected president of the Board of Trustees of the Phoenix library. Within a few months, the library will be housed in the \$25,000 structure, now being erected in a park at the western end of the city, on money donated by Andrew Carnegie.

The United States Leather Company of Mexico has been incorporated in Phoenix, with a capital stock of \$25,000,000, divided into 1000 shares. The corporation is mainly capitalized in Los Angeles, one of the incorporators being the California Leather Company, represented by T. E. Morgan.

Headed by Mrs. W. F. Nichols, wife of Territorial Secretary Nichols, a movement is in progress to institute a district charity nursing system in Phoenix, providing proper care for invalids of slender means.

The Phoenix Enterprise became the Arizona Democrat on January 1, though without change of management or editorial policy.

# Buy a Share Now — Buy Before the Advance

## \$10 Par Value—Nearing the Close

If You Wish to Share in the Profits of This Company, the Surest and Fastest Money-Making Business on the Coast, You Will Have to Buy Shares

PLANT OF THE UNITED STATES GRANITE PRESSED BRICK COMPANY, TO BE  
CONSTRUCTED AT 15TH AND ALAMEDA STS., THIS CITY.

In offering the remainder of the \$7 allotment, we reserve the right to advance the price or withdraw the stock altogether without notice should circumstances warrant it. The ground for the plant will be broken this week if the weather moderates. The machinery has been ordered. The plant should be ready for business in sixty days. The stock is selling fast. The allotment at \$7 may be fully subscribed at any time. Previous allotments were over-subscribed in a very short time. It is not our intention to part unnecessarily with one single share. They may be bought now at \$7 each in lots of 10 shares or more. Those who purchased at \$5 or \$6 have already realized a handsome profit, but nothing in comparison with the steadily increasing value and the unquestioned earnings of a standard, safe and always steady investment.

### DON'T HESITATE, BUT SEE THIS BRICK TODAY

We have samples of the brick—not finished, specially prepared specimens, but the guaranteed run of the plant, on exhibition at our offices. Come and see them. Induce your architect or builder to come with you. We invite the most rigid examination of our product and the most searching investigation of our plans, process and methods of business.

Even 10 shares may mean a Life-Opportunity for you—Do not ignore it

# Los Angeles Daily Times

WEDNESDAY MORNING, JANUARY 9, 1907.

## FIVE SUPERIOR JUDGES, ONE CORONER, AND THREE CANDIDATES IN ODD MIX-UP.

The contest to oust two Los Angeles superior judges and the coroner from their jobs. At the left is Attorney Milton K. Young, who is contesting the election of Judges Houser and Hutton. To the right of Young are Judge Houser (standing), Attorneys Lowenthal (behind a book), Denis

A LAWSUIT that will last two months or more was begun in Los Angeles yesterday. It is the double election contest brought by Dr. James Booth against Dr. Lanterman, who has been sworn into office as coroner, and by Milton K. Young against all the recently-elected superior judges.

At the end of the first day of the contest it became evident that no one but a specially trained and educated expert ought to try to vote. It is too complicated for ordinary mortals. And nobody but the shades of Daniel Webster and Chief Justice Marshall is really qualified to sit on election boards.

So many lawyers and so many litigants have been called into the case that it resembles a legal rodeo.

Mr. Young is represented by the law firm of Denis & Lowenthal, Superior Judge Houser, whose seat is contested, is defended by Attorney A. O. Jeffrey, Charles Phillips and Walter L. Bower.

When the case started in the morning, nearly all the candidates who are disputing or disputed crowded into the courtroom.

Dr. Lanterman came in from his corner's office at intervals all day long—looking black as a thunder cloud despite ignoring the attorney for Dr. Booth, who is after his job. Dr. Booth himself was not there.

Judge Houser, whose seat is contested, spent much time in the room being on the most amiable terms with Mr. Young—the contesting knight, who seeks to dislodge him from the office. As the afternoon waned, however, Judge Houser announced with a grin: "Well, I've had enough of this. I'm

going back to work tomorrow, and let you fellows have it out."

Early in the case Judges James B. Bordwell and Rives were excused. A demurrer interposed by their attorney, George P. Adams, was sustained. Their election is not in any doubt whatever.

Judge Houser's attorney also interposed a demurrer but his was overruled.

THINK COUNTY SHOULD PAY. The question then came up as to the expense of counting the ballots. One point—and the only one upon which the contestants are thoroughly agreed—is that the county ought to foot the bills. They could not even agree very amicably as to who should do the counting.

One of the attorneys nominated as a teller Ed North, who was secretary of the Non-Partisan campaign committee.

"Well, we object to Mr. North," said Attorney Conklin. "He was a friend of the late Judge Houser."

"We never heard of him before, but we object to Mr. North on the same grounds," said Mr. Denis, tartly. Judge West finally nooded every one down and persuaded them to accept of proposed accountants had any ulterior designs, and the following tellers were appointed: Ed North, A. O. Jeffrey, Charles Phillips and Walter L. Bower.

County Clerk Keyes was consulted by the court as to the amount they should be paid. Mr. Keyes thought \$4 a day would do.

"As a large part of their time will be given up to listening to the interruptions of the counsel, I dare say that the amount of \$4 a day would be ample," said Mr. Denis—who is sarcastic.

Mr. Denis had a whack at the portion of the code of civil procedure which provides that no blot or mark on a ballot shall invalidate it unless it appears that the mark was put there with the express purpose of identifying the ballot.

"The only way," he said cuttingly, "that any one could so identify a ballot would be to draw on the ballot a picture of a rhinoceros with strabismus."

Most of the proceedings were excessively dull. The ballots were opened by the County Clerk and passed along from one attorney to another. If nothing was found objectionable the ballots were recorded by the tellers.

SOME BALLOTS FOOLISH. Some of the ballots were very foolish. One man voted a straight Republican ticket with just one out. The one for whom he voted outside of his chosen party was a saloon-keeper.

The contention by which Mr. Young hoped to oust Judge Houser and Judge Hutton and get into office is founded on technical blunders of the election boards.

On the ballot his name in the Democratic column stood opposite that of Judge Rives in the Republican column. Young claims that whenever a voter attempted to stamp both his name and that of Rives the ballot was thrown out. He and Rives were not, of course, running directly against each other, and so, of course, the votes should have been counted.

## WORLD REACH FOR OUR OIL.

New Ships to Carry It Out from San Pedro.

Coming Fuel in the Making of Gunpowder.

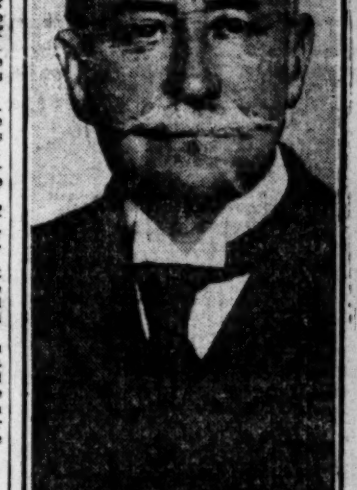

Chilean Est-Railroad Chief Gives Pointer.

California oil will hereafter be one of the principal agencies to help in the manufacture of the gunpowder for the armies and navies of the world. A contract has been entered into between the Union Oil Company and half a dozen nitrate-of-soda concerns of the north of Chile for about 100,000 barrels of oil a year. This is the starting point, and from this order others are expected to spring until the entire nitrate interests of Northern Chile are using nothing but California oil as fuel.

Pablo Masenlli, former commissioner of Chilean state railroads, who has been visiting old friends in Los Angeles the past week, brings the information of the haste with which the nitrate interests are changing from the use of coal to California oil as a fuel.

Mr. Masenlli was commissioner of railroads in Chile from 1874 to 1891, during which time the railroads of the country grew from about 1500 to over 4000 miles. He has been closely identified with the growth of the South American country, and is unusually well informed concerning the deposits of nitrate of soda, which are practically the only ones of considerable size in the world.

NEARLY BILLION INVESTED. The nitrate fields are entirely within the provinces of Tarapaca and Antofagasta, in the extreme north of Chile, and lie in an enormous valley between the coast range and the Andes. The

PABLO MASENLLI, ex-Commissioner of Chilean State railroads.

country surrounding the deposits is a desert, and all fuel used in the manufacture of nitrate from its crude to its commercial form is imported from other countries, principally the United States, Australia and Europe.

The tremendous extent of this industry and the enormous investment in it, they would say, can be realized from the fact that over 400,000 tons of coal has been imported annually for the use of the nitrate interests alone. Mr. Masenlli says that there are 120 English concerns now operating in these districts, and that the investment in property, machinery, railroads, etc., will average about \$3,000,000 each—a total of \$360,000,000.

Practically every ounce of nitrate used in the manufacture of the various grades of explosives in the world is secured from these deposits in North Chile. The Chilean government gave away these lands to any who sought them up to 1883, but after that their great value became apparent, and the government retained a slight holding.

The value and availability of California oil as fuel in the place of coal first became known when J. H. Humberston, manager of the Agua Santa Nitrate Company, imported a small quantity of oil from Peru. The first test was eminently successful, and an effort was made to secure a sufficient quantity from Peru, but the supply was scanty and gave no promise of increasing. As an experiment the Union Oil Company was called upon to supply the higher grade, and the results were even better. Consequently, a contract for five years ago was made, which is but the start of a business between the oil fields of California and the nitrate deposits of Chile, which promises to run up toward a million barrels.

SHIPS FROM SAN PEDRO. To meet the demand for the oil, the Union Company will shortly begin the construction of several unusually large tank steamers, which will ply between San Pedro, San Diego and

(Continued on Tenth Page.)

## TROLLEY FREIGHTING OFFICIALLY FAVORED.

FOLLOWING a series of secret conferences in which Councilmen, the Mayor, commissioners of the Board of Public Works and street railway magnates have taken part, it was announced officially at the City Hall yesterday that the new administration will favor granting to the electric railway companies permission to carry freight.

This permission will legalize a freight-carrying service by the electric lines, that have been in operation for three years. In the opinion of the business community certain kinds of freight can be transported from the suburbs to the wholesale district quicker, cheaper and with less hindrance to traffic by trolley than in any other way.

"Regulating the carrying of freight by electric cars," is the way the idea is expressed by the new administration. The permission is to be granted subject to three stringent requirements:

Freight must be carried only between 1 o'clock and 5 o'clock in the morning.

No freight shall be carried except in closed cars.

The railway companies must pay to the city a substantial sum for the freight-carrying privilege.

"Under those conditions I do not believe that freight carrying will be objectionable to any one," said Councilman Livingston yesterday afternoon. "We have been doing this freight-carrying for three years, it is time we took hold of the question and handled it in an intelligent manner."

Plainly the business community demands that the electric cars be permitted to carry certain classes of freight—fruit and vegetables to the city market, for instance. At the same time the citizens in general demand that such privilege shall not be made a nuisance, and that passenger traffic shall not be hindered by freight carrying.

A freight-carrying privilege; but trolley Councils have always avoided the issue. The Board of Public Works is well aware that freight was carried through the streets by electric cars, so far as the board has made neither recommendation nor objection.

Last year Mayor McLeer caused the arrest of motormen on cars that were carrying freight. Complaints were filed by the city, but the city lost in the Police Court. City Prosecutor Beebe was censured the time for not appealing the cases, but it later developed that when he dropped the suits he acted under the instructions of City Attorney Mathews.

It's SO WASHY STREET ROARS. CHINESE BUILDING STIRS UP A NEIGHBORHOOD.

Wash House Suddenly Reared Under Difficulties in Fashionable Residence District Rent by Storm and the People Rejoice—Celestial He Was Peculiar.

The fashionable neighborhood about Thompson street is in a state of wild alarm.

A lovely Chinese wash house is about to get up business in its midst. The pet puddles out on their airings from Chester Place will have to be led around the block the other way to avoid the vulgarizing sight of flannel underclothes flapping in the breeze.

The thing has shot up so quickly that it is realized that what was happening until one of the grief-stricken residents called to street sent a wall of anguish.

Some bricks were delivered on the lot next the corner of Twenty-third and Thompson streets not over ten days ago. They were viewed calmly and without emotion by the people of the vicinity.

But the gait at which they began to grow into a building aroused suspicion. When a buggy drove up one Sunday discharging a festive Chinese in all his glad attire, the fashionable neighborhood was stabled to the heart. The lively stable on the corner was laid enough; but this—

speed; nor tarried until Thompson street and that part of Adams street lying near and even on St. James Park and Chester Place was alarmed.

Since then many Chinamen have come; but they have not enjoyed their visits. They could stay no longer than for a peek into the brick skeleton, then irate females came down the street under full sail in pursuit.

Little boys swarmed at them and indignant patrefamilias trod ponderously across the street at them. So the crafty Celestial took advantage of the fact that the two City Councils were changing places and shot up his building before any one could notice.

Yesterday the roof was upon the brick building what Thompson street believes to be the judgment of heaven. MEN MAY ENTER NOW.

Fine Arts League Places Four of the Sterner Sex on Its Advisory Board.

The Fine Arts League is no longer a women's organization. The women have decided that men will be exceedingly useful when it comes to building a permanent art gallery for Los Angeles, and yesterday placed the names of four upon the lengthy list of the advisory board for the year 1907. It is not mentioned in the bond, whether the men are literally to do the building, and huckle brie and stone for the glorious structure, that is to be the pride of the Southern art scene, they will come in handy when money is needed for the enterprise, and if history repeats itself, they may be called in occasionally to calm the storms of feminine discussion.

The men who have taken up the artistic burden are not only committed to the cause, but are scheduled to see the thing through, for they are all life members and the league has arranged no way of getting rid of such members when once acquired. Henry McHenry, George E. K. Porter, Albert M. Stephens, Sumner P. Hunt, M. J. F. Stearns, O. Shepherd Barnum and J. E. Spranger.

A meeting of the entire league will be called for January 22, when plans will be laid for the active work of the future.

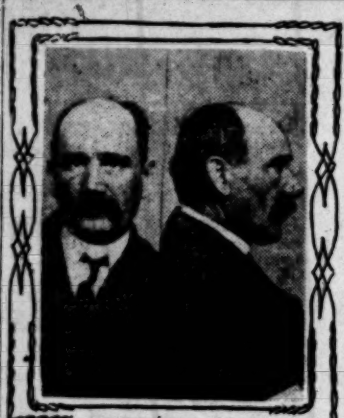

**STORY OF SHOCKING ABUSE.**  
D. Ott the Victim of Assaults at the Hands of His Mother and Her Life Saved by Timely Arrival of Police.  
D. Ott, of No. 214 East 10th street, yesterday morning told the police of a shocking abuse in the home of his mother, Mrs. D. Ott, who was struggling with a desire to shield her son from the law.  
D. Ott, who is a young man, was yesterday morning told by his mother, Mrs. D. Ott, who was struggling with a desire to shield her son from the law.  
D. Ott, who is a young man, was yesterday morning told by his mother, Mrs. D. Ott, who was struggling with a desire to shield her son from the law.

**CAUGHT BY TRICK.**  
Clever Girl Puts Purse Containing Marked Coins Near Suspected Thief, Who Grabs It.  
Through the cleverness of Miss E. Usher, an employee of the Broadway Department Store, J. W. Moses was captured in the act of stealing a purse yesterday. After Moses had been turned over to the police, more incriminating evidence was secured against him. The authorities believe that he has been at that kind of work for some time.  
For several days employees of the department store have been missing purses, occasionally wearing apparel and several small thefts from various departments have been reported to the office. The house detectives and floor walkers were unable to discover the thief.  
Miss Usher marked several pieces of coin and put them in her purse. She had suspected Moses because he had been in the store a number of times. When she saw him there yesterday, she placed her purse on the counter near him. Miss G. Olsen and E. L. Lewis saw Moses pick up the purse. He was detained and turned over to the police.

**ORGANIZE TO FIGHT FOR GAS.**  
CONSUMERS' ASSOCIATION IS TO START CAMPAIGN.  
Ex-Councilman Houghton and Ex-Candidate Loucks Lock Horns. Gas Cohorts Attempt to Stampede Indignant Citizens from Their Purpose.  
The meeting of indignant gas consumers held last night at the office of R. G. Loucks in the Stinson block, came near being stamped from its avowed purpose by Dr. A. D. Houghton and E. E. Craudall, receiver for the Lowe gas concerns. They, with several other representatives of the Los Angeles Gas Company, were present at the meeting, which consisted of about thirty men and a half-dozen women.  
A. D. Hunter was made temporary chairman, and U. N. Gilbo, secretary, while Mr. Loucks served as chief spokesman for the protesters. Dr. Houghton, while acting ostensibly with the other complainants against bad service and unjust bills from the gas company, nevertheless was evidently there in the interest of the latter. Craudall, ostensibly there in the interest of the Lowe company, talked much as if he, too, were in the service of the Los Angeles Gas Company, and for a time they all practically all the talking, counselling moderation and making many excuses for the bad service complained of.  
Loucks and Houghton got into a wrangle over a statement made by the latter that Loucks had come to this city from Pomona to fight the gas company, and was acting now in the employ of the Lowe company.  
Loucks made a positive and angry denial, and many points of order and objections from Houghton, that reminded one of his dilaatory tactics in the City Council, but he and Craudall were finally squelched under the leadership of aged B. J. Waters, who made several hot but short speeches, in one of which he said:  
"All this talk has been only to break up this meeting and prevent its being of any effect."  
The meeting resulted in the appointment of a committee of three, consisting of Dr. H. H. Loucks, R. G. Loucks and Fred Silver, to prepare a statement of principles to be presented and signed by persons who wish to become members of the "Los Angeles Gas Consumers' Association," at a meeting to be held in room No. 206, Tajo building, on Wednesday evening, January 16.  
The temporary officers were continued until the next meeting, when a president, vice-president, secretary and treasurer will be chosen for the permanent organization. Meantime the temporary chairman was authorized to appoint a steering committee of five to have direction of the policy of the association.  
From the start last night the meeting lacked efficient leadership to combat the tactics of the gas interests, and unless this is mended at the future meetings of the association it will find its efforts of little effect, though they undoubtedly have a sore grievance against the kind of service the Los Angeles Gas Company has rendered during the past two or three months.  
A brief statement of grievances was adopted, to which was attached a sort of sliding scale of prices which the gas company may charge, according to the quality of the gas furnished, and also regulating the pressure to be maintained in the pipes. This statement is to be placed in the hands of the steering committee as the basis upon which a city ordinance is to be built for regulation to the City Council.  
Houghton tried several times to sidetrack all this, and substitute in its stead an endorsement of the position taken by Mayor Hagner in his inaugural address, on the subject of gas regulation, but he found nobody to support him.  
B. J. Waters declared: "Sifted down, the only thing the new Mayor did was to endorse economy in the use of gas, and who under heaven ever heard of a man who was not economical of his gas, unless he had more money than brains."

**GREAT OPPORTUNITY FOR FURNITURE BUYERS**  
THE LIGHT OF THE FURNITURE WORLD  
**GIGANTIC PURCHASE NOW ON SALE**  
This week promises even to be more interesting than last. The "Gigantic Purchase" of 30 carloads staple and fancy furniture are now unloaded; all floors are crowded with unlimited "bargains" that reveal many startling values. Strenuous price cutting continues to prevail throughout the entire lines. The great interest displayed in this sale towards the end of the week confirms that surmise. Because shoppers have been making comparisons. When comparisons are made, the purchase invariably goes to Overell's. The people of Southern California were quick to realize the great advantage offered and have flocked hither to grasp these golden opportunities.

BOARD OF TRADE REPORTS.

Some of the members of the Board of Trade have been busy during the last year for the city.

Jan. 8.—The first annual meeting of the Board of Trade was held at the Hotel Redlands last evening.

President H. P. D. King presided over the meeting, which was held at the Hotel Redlands.

The meeting was held at the Hotel Redlands, and was attended by a large number of the members of the board.

PETITIONS REFERRED.

Committee Will Act on Franchise.

Texas Fever Among Cattle—Big Prices for Lots.

SAN DIEGO, Jan. 8.—The petitions of the San Diego and Arizona Railway Company, by D. C. Collier and H. T. Richards, for railroad franchises were referred to the Street Committee of the Council today.

Dr. H. B. Hood of Washington, D. C., is here in the interests of the bureau of animal industry.

Francis Conaghan, aged 57, a resident of this city twelve years, died yesterday.

The prize medal in the golf tournament, held at Coronado, yesterday, was won by N. E. Barker.

The Board of Supervisors has organized with H. M. Cherry of this city as chairman.

REDLANDS TENNIS AND GOLF.

REDLANDS, Jan. 8.—The trophy for golf will be held by M. E. Glimm for the coming year.

The tennis tournament which was to have been held on the Country Club courts last week has been postponed.

FEAR FOR STEAMER.

SAN DIEGO, Jan. 8.—Already twenty days out on a journey that ordinarily does not require more than eight days to complete, the Bernardo Reyes, a powerful steamer owned by the Berry Mining Company, is causing some anxiety.

It is feared that the steamer was disabled in the recent storm. The Mexican gunboat Tampico, now at Ensenada, is to leave tonight to search for her.

\$10 WOMEN'S COVERT JACKETS \$5. Nobby Covert jackets in fine coverts, satin or silk lined, strapped front and back, flat or turnover collar. Values to \$10.00 at \$5.00.

## TAKING NO CHANCES.

Southern Pacific Making a New Grade Around Salton Sea and Surveying Above Sea Level.

COACHELLA, Jan. 8.—Within the past twenty-four hours several Southern Pacific grading outfits, comprising over 300 men and 400 horses and mules, have camped at the extreme lower end of the valley and are busy engaged in grading around the Salton Sea. Similar outfits are working from the south end of the valley. Apparently the Southern Pacific is going to take no chances of any possible interruption of their traffic, in event of any hitch in their present mammoth plans to stop the sea's source.

It also has an engineering corps of twenty men engaged in running a survey for a new road at a fifty-five foot above sea level to the west of the valley. This survey is being made, it is understood, to arrive at the cost of building such a road if matters go to the extreme.

VALLEY NOTES.

R. L. Clingan and James Scripps, son of E. W. Scripps, were in the valley last week to select a suitable place as headquarters for a gasoline launch for pleasure purposes on the sea.

It is estimated that over 2000 cords of mesquite wood has been shipped from the valley during the past three months, and that there is still 1500 cords, which will be shipped during the next two months, all going to Los Angeles.

RIALTO HAPPENINGS.

RIALTO, Jan. 8.—Paul Tibbot and Mrs. Tibbot arrived today from Coeur d'Alene, where they were married New Year's day. The bride was Miss Aurelia Max of this town.

Since Saturday the rainfall for this locality has been 2.91 inches with prospects of more. The fall for Monday alone was 1.44 inches.

Both the Methodist and Congregational Churches are observing the week of prayer.

Miss Nellie May Daily and Harry Hodge returned to their studies at Occidental College after having spent the holiday vacation with their parents.

## MURDER IS CHARGED.

Saloon-keeper Arrested Upon Complaint of Mrs. Arnold, Whose Husband Was Shot Recently.

[BY THE ASSOCIATED PRESS.—P.M.] BAKERSFIELD, Jan. 8.—Jack Harrison, a saloon-keeper of Johannesburg, was arrested last evening on a charge of murder on a complaint sworn to by Mrs. J. H. Arnold, widow of the late constable at Randburg, who died on Friday last as the result of a gunshot wound generally supposed to have been self-inflicted, as the result of an accidental discharge of a pistol.

Harrison and Arnold were in a bus at the time of the accident. Arnold lingered many days after being shot, and while there was suspicion that the wound was not self-inflicted, no accusation was made until the sensational complaint of the widow was sworn to yesterday.

Harrison was released on \$10,000 bonds.

PLACENTIA PARAGRAPHS.

PLACENTIA, Jan. 8.—The division and sale of the large Foster estate at Capistrano is of interest to Placentia people. Mrs. William McFadden, one of the heirs, is a resident here.

Mr. Pillsbury, manager for H. E. Huntington, assures Placentia residents that an electric road will be built through Placentia south as soon as the road from La Habra east is completed.

A valuable horse on the Nessel ranch met death in a peculiar way. It was in a corral, and during the night ran a large splinter off the fence in his neck and died to death before day.

The heavy rain of Saturday, Sunday night and Monday did some damage to roads and orchards. It was the heaviest rain that has visited this section for many years.

But few oranges were shipped for the holiday trade from Placentia. Most shippers began active work immediately after the New Year. The heavy rain, however, will delay packing for at least a week in most orchards.

Mr. Chapman began packing his famous Old Mission brand oranges yesterday, and expects to ship regularly every week till November to supply his New York trade. This is the tenth year Mr. Chapman has shipped to New York, and each of the nine years made the record for prices on California oranges.

**It's Easy to Prove**

The superior merit of Dr. Price's Food over other cereals, many of which are adulterations and injurious to health.

**DR. PRICE'S WHEAT FLAKE CEREAL FOOD**

Is made from the whole wheat grain and absolutely free from adulterations or bleaching fluids. Prepared by a physician and chemist of unquestionable repute. The name is a guarantee of its purity, as no food products bearing his name have ever been questioned.
